

A CHANGE IN THE CABINET

Reorganization In The Near Future Now Appears Imperative.

CALL FOR ROSEBERRY

Strong Demand That He Take the Premiership Is Made By the People.

The latter, however, has no desire to join in a coalition ministry—German government wants the facts concerning the seizures of ship, but public sentiment is less violent—the losses in recent battles—quiet on the Modder River—A days news from the front.

London, Jan. 11.—[Special Cablegram]—It now seems to be a generally accepted fact that the cabinet is to be re-organized in the near future. There is a strong demand for Mr. Roseberry to take the premiership, but Mr. Roseberry has no desire to join in a coalition ministry.

No News at London
London, Jan. 11.—[Special Cablegram]—No news of any importance has been received from South Africa today. This fact has tended to increase the growing impatience of all England over the absence of information from the front. Not even the arrival of Roberts and Kitchener at Cape Town has had a pacifying effect in public. It is generally admitted that Roberts will be unable to make a forward movement until next month.

Reichstag Is Interpellate
Berlin, Jan. 11.—[Special Cablegram]—The various groups of the Reichstag have agreed to interpellate the government concerning the seizure of German vessels by the British warships. The popular excitement over the incident is decreasing.

Boer Losses Reported.
Pretoria, Jan. 11.—[Special Cablegram]—An official dispatch to the States Courant gives the Boer losses in the battle of Magersfontein as forty eight killed and one wounded. At Stormberg four were killed and eighteen wounded.

Methuen Not Recalled
London, Jan. 11.—[Special Cablegram]—The report published in the United States to the effect that Gen. Methuen has been recalled is denied at the war office.

Battle Is Rumored
London, Jan. 11.—[Special Cablegram]—There is a rumor at the military clubs that a battle is in progress at Tugela river.

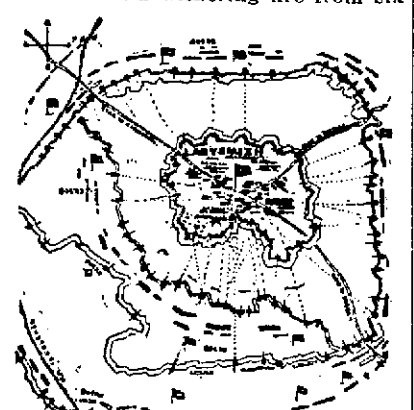

Quiet on the Modder River
Cape Town, Jan. 11.—[Special Cablegram]—An official announcement says that all is quiet at Renesburg and on the Modder river.

Lord Roberts in Cape Town
London, Jan. 11.—Gen. Lord Roberts, the new commander of the British forces in South Africa, and his chief of staff, Gen. Lord Kitchener, have arrived at Cape Town.

The Durban correspondent of the Standard, telegraphing Tuesday, says 1,200 Indian stretcher bearers started for the front the previous night and that their departure was regarded in Durban as indicative of a renewal of the fighting.

The war office announces that the list of British casualties at Ladysmith last Saturday has not yet been received.

The following dispatch, dated at Frere Camp, Jan. 10, noon, has been received from Gen. Buller:
"A Transvaal telegram gives the enemy's loss at Ladysmith on Saturday as four killed and fifteen wounded, and this after, as is admitted, they had endured a withering fire from six

BIRD'S-EYE VIEW OF LADYSMITH, masked batteries and been defeated at all points.

"Natives here assert that the Boer loss in one commando alone is 150 killed and wagonloads of wounded. The

heaviest loss is said to have been among the Free Staters, who were forced by the Transvaalers into the most dangerous places."
This curious dispatch is all the war office has issued. It makes not the slightest mention of the position or doings of the British forces. It may be interpreted to mean that Ladysmith is safe, but it is more likely intended to prepare the British public for a terrible list of casualties.

A dispatch to the Daily Telegraph, dated Monday, Jan. 8, at noon, from Frere camp, says: "Firing from the Boer positions around Ladysmith began early today. It still continues, but the cannonading is light and irregular."

Methuen to Be Recalled.
London, Jan. 11.—Lieut. Gen. Lord Methuen, commanding the column advancing to the relief of Kimberley, is to be relieved of his command within two weeks. Later he will be sent to Cape Town and eventually ordered home. When he reaches England he will be retired. It is claimed he is mentally unbalanced.

It is stated by those acquainted with the inner workings and plan of campaign adopted by the war office that

THE RUINED TUGELA BRIDGE. Lord Kitchener, the hero of Omdurman, who with Lord Roberts arrived at Cape Town Wednesday, will proceed immediately to Modder river.

The London Press is considerably suppressing the true state of affairs so far as Methuen's ailment is concerned, but the papers do not hesitate to print the hard facts about the battle of Magersfontein, which are just reaching London through the mails, all of which go to show, in the language of an officer, that "the attack was that of a madman."

Russia Moves on Persia.
London, Jan. 11.—The Calcutta correspondent of the Daily Mail says: "While the official statement that no alarm is felt concerning Afghanistan is quite true, I have good reason to believe that the Indian government has received disquieting information regarding Russian movements in the direction of Persia. Russia is taking advantage of the Transvaal trouble to strengthen her armaments and to push forward her outposts along the Persian frontier, with a view to ultimate annexation—a design in which Germany would probably acquiesce, in consideration of receiving railway concessions."

Three Months and No Progress.
The Standard summarizes the general situation thus:
"Well, the campaign has lasted three months. We have something like 120,000 troops in South Africa. With this huge army distributed over the country we are still powerless to relieve three garrisons from investment. We have still to see large portions of both colonies in the hands of the enemy. We have driven the invaders back at no single point. We are actually farther from the hostile frontiers than we were on the day that the ultimatum was delivered. The work which ministers believed could be effectually performed with 25,000 men has not been done, has not even begun, by four or five times that number. Can anyone fail to admit that this is evidence of a grave miscalculation of forces and facts?"

Swiss Protest Against the War.
Zurich, Jan. 11.—Fifteen hundred persons attended a mass meeting at Basle, called to consider the Transvaal war. The meeting decided to protest publicly against the prosecution of the war by the British government and to ask President McKinley, acting under article 3 of The Hague convention, to intervene.

American Flour Is Released.
London, Jan. 11.—The American flour seized off Delagoa bay has been released. United States Ambassador Choate had an interview with the marquis of Salisbury Wednesday, and received a verbal reply to the representations of the Washington government. The British note on this subject was sent later to the United States embassy. It holds that breadstuffs are not considered contraband of war unless intended for the enemy.

Quietly by Release of Herzog.
Berlin, Jan. 11.—With the release of the Herzog German indignation over British seizures is subsiding. A representative of the foreign office says, however, that the department cannot understand Great Britain's unwarranted seizure of German vessels on which no contraband was carried, and that it will insist on the payment of heavy damages for the outrage on the German flag.

Spanish Soldiers Offered England.
London, Jan. 11.—A dispatch to the Daily Telegraph from Gibraltar says: "Three thousand time-expired Spanish soldiers who recently served in the Cuban war have offered their services to the governor for the war in South Africa. His excellency informed their

ROBERTS BARRED FROM THE HOUSE

Committee Report Will Be Unanimous In Favor of Exclusion.

WORD IS AUTHORATIVE

The Only Debate Was On the Point of "Expulsion" vs. "Exclusion."

Chairman Taylor Is Preparing the Necessary Documents For the Official Presentation In the Case—The Utah Man Says He Would Not Be Surprised If He Was Allowed to Take the Oath of Office—Other News Notes From the Capital.

Washington, Jan. 11.—[Special Telegram]—The report favoring the exclusion of Congressman Elect Roberts is being prepared by Chairman Taylor of the House Roberts investigation committee.

From the executive session of the committee, this morning, word comes that the committee is absolutely unanimous as to the facts. The only question is between the exclusion or expulsion of Mr. Roberts.

Mr. Roberts says he believes that the House already regrets the action taken and would not be surprised if he was allowed to take the oath of office.

Clark Investigation
Washington, Jan. 11.—[Special Telegram]—The taking of testimony in the case of Senator Clark of Montana, whose seat is contested on the allegations of bribery was continued today.

Ex-State Senator Whiteside testified that Clark's manager, John Welcome, gave him \$10,000 which he was to keep provided he voted for Clark for senator.

Gage Makes an Explanation
Washington, Jan. 11.—Secretary Gage's reply to the resolution of congress asking for information about deposits of public moneys, and especially about the relations between the National City bank of New York and the Hanover National bank of New York went in Wednesday. The paper reaches congress in the form of an executive document, and was referred to appropriate committees of the two branches without a word of debate. The copy that went to the senate was referred to the finance committee. The committee on ways and means got the house copy. The secretary of the treasury claims he has observed with rigorous fidelity the letter and spirit of the law in the handling of public moneys placed under his direction.

He is especially clear in his statement of every detail connected with the sale of the New York custom-house site to the National City bank and to the disposition made of the proceeds. By the acts of his predecessors and the rulings of the comptroller of the treasury he asserts he had a perfect right to deposit the proceeds from this sale in qualified government depositories and that moneys so deposited to the credit of the treasury of the United States are in the treasury, just as much as though they were actually on deposit in the vaults at Washington.

The legal prohibition against depositing public funds in bank depositories secured by government bonds, he says, applies only to customs receipts. This statement is backed up by letters, opinions and memoranda showing that for thirty years the secretary of the treasury has exercised the right conferred upon him by the law of placing any such part of public receipts, except customs, as in his discretion he might deem best, with duly qualified government depositories.

The secretary calls attention to the fact that under his management the treasury department has received since June, 1898, \$1,100,000,000 and distributed it without disturbance to the financial or commercial equilibrium of the country. This exhibit, he admits, gratifies him immensely, and he takes it as proof that he has administered the affairs of the department satisfactorily.

Possibly an effort will be made to press this matter further, but the opinion is generally held that it will be allowed to drop after the senate and house committees make their report on it.

CORBETT INSANE IN RACINE JAIL

Picture Agent Loses His Mind And Is Exceedingly Violent.

HIS MIND SHATTERED

At Some Times Two Strong Men Can Hardly Hold Him In Control.

Consultation of Physicians To Be Held at Once to Consider the Advisability of Sending Him to an Asylum For Treatment—Strain Consequent to His Arrest and Confinement Supposed to Have Affected His Reason, As He Has Been a Victim of Asthma

Milwaukee, Jan. 11.—[Special Telegram]—A special from Racine to The Evening Wisconsin says that Henry F. Corbett of Milwaukee, who was held charged with the shooting of Rev. and Mrs. David B. Cheney, has gone insane. He is very violent, and at times it requires two strong men to hold him.

A consultation of physicians will be held to consider the advisability of sending him to a private asylum.

Corbett had been suffering with asthma, and has been in poor health for some time.

LEAGUE TO VISIT BRODHEAD

Local Temperance Workers Have Decided to Labor in Green County

Members of the Frances Murphy Temperance League of this city expect soon to make a campaign in Green county. Brodhead citizens want the local league to start the work in that city, and organize an order so that the work may be carried on for all time to come. In speaking of the proposed trip Al Smith of the Frances Murphy League said:

"We are going to Brodhead. Before our return you can rest assured that we will have a league established there as well as headquarters. The good citizens want us to come and we are going before many days with several good speakers."

The men's meeting of the Y. M. C. A. and the Frances Murphy League will join forces next Sunday afternoon and hold a union meeting in the Y. M. C. A. auditorium at 3 o'clock.

MISSIONARIES ARE IN GRAVE DANGER

Chinese Hold the Workers Responsible for a Famine That Is Likely to Cost Thousands of Lives.

Toronto, Ont., Jan. 11.—[Special Telegram]—A letter from a missionary at Honan, China, was received here today. It reports an utter failure of the crops throughout that district, and says that thousands of the people will surely perish. The natives blame the missionaries for their misfortunes, and a demonstration against them is made daily. The foreigners fear for their lives, and will petition their governments for protection from the natives.

FUNERAL IS HELD; MANY ARE PRESENT

Streets are Crowded With Rich and Poor Alike Who Honor Dr. McGlynn.

Washington, Jan. 11.—[Special Telegram]—Solemn and impressive funeral services were held today over the remains of the late Rev. Dr. Edward McGlynn in St. Stephens Catholic church. The streets for blocks around were crowded by rich and poor alike who called to pay a tribute to the dead man.

ENGLAND'S ANSWER RECEIVED TODAY

The Contents of the Dispatch, However, Have Not Yet Been Made Public.

Washington, Jan. 11.—[Special Telegram]—The state department today received Great Britain's reply to Ambassador Choate's representations regarding the seizure of American flour in Delagoa Bay, but the contents have not yet been made public.

THE MAN IS LOCKED UP

Whole Platoon of Sheriffs' Police, Turnkeys and Deputies Mobilized in the Third Ward.

A rag peddler who had frightened several Third ward women was arrested late this afternoon. Telephone messages were sent all over town by Mrs. D. K. Jeffris, and Chief Hogan, Officer Brown, Sheriff Appleby, Turnkey Brown, and Under Sheriff Roberts were all notified. The rag peddler was quickly rounded up, and while Captain John Brown drove the ragwagon down town, the balance of the "force" took the picker to jail.

THE BANK RATE IS CUT

Crisis Caused by the Scarcity of Gold in London Has Been Averted.

London, Jan. 11.—[Special Cablegram]—The bank rate has been reduced to five per cent, and the crisis caused by the scarcity of gold, is believed to be passed.

ROOT DEFINITELY DECLINES.

Present Duties Preclude His Candidacy for Vice-President.

Milwaukee, Jan. 11.—Henry C. Payne, national republican committeeman of Wisconsin, in receipt of a letter today from Elihu Root, secretary of war, in which Mr. Root says he is not and will not be a candidate for the office of vice-president. He says he arrived at this conclusion by reason of the delicate condition of affairs which exists and which will continue for a considerable period in Cuba and the Philippines.

He deems it far more important to the country, the administration and the republican party, that he should continue to attend to the business of the war office than to be a candidate for vice-president; not that there are not plenty of other men who could well discharge the duties of secretary of war, but having spent five or six months in becoming familiar with the subject, no other man could step in and take up the work without going through the same training.

CALL JUDGE B. F. DUNWIDDIE

Left Today For Hudson to Settle Court House Difficulty

Judge B. F. Dunwiddie of the circuit court of Rock county, left today for Hudson, Wis., where tomorrow he will hear the proceedings to dissolve the injunction against the new court house construction. The trouble at Hudson has been brewing for several weeks and has been of a bitter nature. Hence the decision of Judge Dunwiddie is awaited with much interest by all citizens of St. Croix county.

LIEUT. GREENE KILLS HIMSELF

Janesville Naval Officer Takes His Own Life In Uruguay.

SCHLEY SENDS NEWS

Official Dispatch Received At Navy Department From the Admiral Commanding

The Dead Man Was the executive Officer on the Cruiser Montgomery, and Had Been in the Service Since 1867—Secretary Long Sends Word to the Widow, Says Nothing About Suicide—No Further Details Are Received—Secretary Long to Send Fuller Information By Mail.

Washington, Jan. 11.—[Special Telegram]—The following cablegram was received at the Navy department this morning:

"Montevideo, Uruguay, Long, Secretary of Navy, Washington, D. C.—Lieutenant Commander Francis Greene committed suicide Wednesday evening. 'W. S. SCHLEY,'

Admiral Commanding. The records of the Navy department show that Greene has been in the service since 1867. He leaves a widow in Janesville, Wis. At the time of his suicide, he was the executive officer of the cruiser Montgomery. He was born in Indiana. SCHLEY-McREA Press Ass'n.

The above announcement reached this office at 1:45 o'clock this afternoon, and being in the form of an official report from Admiral Schley, is official.

The following dispatch from John D. Long, secretary of the navy, was received by Mrs. Greene this afternoon. "I deeply regret to inform you of the sudden death of Lieutenant Commander Francis E. Greene at Montevideo, Uruguay, on Jan. 10, and will mail you further information. I feel great sympathy for you in your affliction."

"JOHN D. LONG," Sec'y. of the Navy.

No further details of the sad affair are known.

The news was communicated to Mrs. Greene this afternoon by her father, E. H. Davies.

Lieutenant Commander and Mrs. Greene were married in this city about ten years ago, and have two children, a son and a daughter.

Lieutenant Greene was about forty-eight years of age. He was a native of Indiana, entering the naval academy from the Vincennes district.

A letter was received from him by the family yesterday, saying that all was well. This letter was mailed from Montevideo some time ago as some time is necessary for a letter to come from Uruguay.

There had been several cases of fever on the Montgomery, the men becoming sick because of the warm climate.

It is quite likely, therefore, that Lieutenant Greene also fell ill, and took his own life while mentally unbalanced.

HONOR PROF. PORTER ON HIS BIRTHDAY

MEMBER OF BELOIT FACULTY
FORTY-SEVEN YEARS.

Venerable Teacher Is Extolled By
Faculty and Students By Whom
He Is Held In Affectionate Regard—
The Growth of the Line City In
1899.

Beloit, Wis., Jan. 11.—Prof. William Porter, dean of Beloit college, who celebrated his eightieth birthday yesterday, received a special token of esteem from his fellow college professors and the student body last evening. The usual chapel exercises were converted into praise services eulogizing the work of Prof. Porter in Beloit college during the past forty-seven years. The Rev. Edward P. Salmon spoke for the alumni, and said that the present students could not appreciate the veteran as the older alumni do. He spoke of the days when Prof. Porter was one of the main stays of the institution.

Harry Mussey of the senior class, spoke for the present students, and paid a tribute to Prof. Porter's personality. He said the soulful, generous man was the inspiration of every student of today, and pledged the grand man that there was not a student but who loved him.

Prof. Porter, when called upon by President Eaton, responded in a voice softened by emotion, in which he thanked all for their expressions of good will, and assured the students that he could not grow old when he looked into their bright young faces every day, assuring them that they had been his hope and strength.

Beloit's Prosperity in 1899
Beloit, Wis., Jan. 11.—The past year was one of unprecedented growth for Beloit, as marked by new buildings.

There were 214 houses erected. The sum expended for factory and business houses improvements were \$223,000.

The Fairbanks-Morse Manufacturing plant expended upwards of \$50,000 for improvements.

The Berlin machine works \$4,000. Barrett paper mill \$20,000.

The promise for much building this year is very good.

Beloit now boasts of a population of 10,000 and thinks her record for building will not be equalled in the state.

H. V. Graveston Dead

Beloit, Wis., Jan. 11.—H. V. Groves, died yesterday, aged 71. He was one of Beloit's pioneer business men. He came west in 1846 from Johnstown, N. Y. He engaged in the paper trade.

CHAINLESS WHEELS POPULAR

Local Dealers Predict That Many Will Be Sold in Janesville

During the past few days local cycle dealers have received a number of bicycles of the 1900 model. Fully one-third of the bicycles received are of the chainless model. Said a local dealer: "The chainless wheel is no longer an experiment. We look for a brisk sale on this style of wheel the coming season. For seventy-five dollars one will be able to purchase a high grade wheel of the chainless style. There is no longer any danger of the gears getting out of order. On the other hand it has been proved that they improve with use. In the matter of chain wheels a high grade model can be purchased for forty dollars."

DULL LEAF MARKET PRICES ARE FIRM

Holiday Vacation Quiet Has Not Yet
Been Broken Into, Edgerton
Dispatches Say.

Edgerton, Wis., Jan. 11.—The tobacco market is not reviving very fast after the holiday vacation. There is some riding being done in the growing districts, but the aggregate transactions do not approach very large figures. Prices, however, seem fairly well maintained, and 8-cent sales are not uncommon. The soft weather has again given the farmers an opportunity to remove from the curing sheds and strip out the balance of their crops. Large quantities of tobacco are now being delivered at the warehouses in the packing points, and the sorting rooms are now busy. Somewhere near 1,000 hands are now employed in the warehouses in this market, and help so far has been so abundant that people looking for work are turned daily away. There is a good strong inquiry for everything in the line of old goods. The 1898 leaf especially is being picked up closely at very satisfactory prices to holders. The Havana American company have lately bought 3,000 boxes from local packers, including a 1,000 lot of G. H. Rumrill at Janesville.

Edward A. Kerbs, the head of the New York manufacturing firm of Kerbs, Werthm & Schiffer, is in the state for a short stay. His factory is a large consumer of Wisconsin leaf and has an annual output of more than 100,000,000 cigars.

SILVER WEDDING IS MARKED

Mr. and Mrs. Denning Were Surprised
by Friends Tuesday Evening.

Mr. and Mrs. Wm. Denning, 159 South Franklin street, were very pleasantly surprised last Tuesday evening, it being the twenty-fifth anniversary of their wedding. Progressive cinch was the order of the evening, and everybody enjoyed themselves thoroughly. An appetizing dinner was served between 11 and 12 o'clock. The hostess was the recipient of a number of beautiful presents as souvenirs of the occasion. The guests departed during the small hours of the morning, wishing the host and hostess many returns of the day. The first prizes were won by Wm. Mason and Mrs. M. Conroy, while the booby prizes fell to Melbie Houghton and Mr. Mulligan. Those who partook of Mr. and Mrs. Denning's hospitality were:

Messrs and Mesdames— William Spicer, Richard Downs, John Hemmons, John Denning, Thomas Dunphy, Mesdames— Anna Bernard, Martha McCoy, Misses— Philip Castigan, Thomas Dunphy, Thomas Madden, George Cullen, Walter Conroy, Arthur Conners, Edward Bonard, Misses— Julia Kenna, Alice Carroll, Sarah Dunphy, Maud Conroy, Julia Cullen, Elizabeth Skivington, Margaret Cullen, Katherine Denning, Elizabeth Cullen, May Conroy, Bess Shivan, Nellie Houghton, Margaret McManus.	William Mason, Michael Conroy, Charles Gray, Joseph Denning, Thomas Cullen, James Madden, Guy Olin, Herbert Neims, John Brown, Wm. Mulligan, Wm. Knipschildt, Willie Denning, Margaret Cullen, Katherine Denning, Elizabeth Cullen, May Conroy, Bess Shivan, Nellie Houghton, Margaret McManus.

Indignities Use of Disinfectants.

It is a foible of human nature to pass from one extreme to the other. People are slow to accept a new theory; but, having once adopted it, they are ready to work it to death. They have recognized the value of disinfectants and deodorizers, and many employ them by the bucketful without rhyme or reason, trusting blindly to the efficacy of these on the principle that one cannot have too much of a good thing. So we find English medical authorities protesting against this injudicious use and declaring that "it has been found that disinfectants are used in a haphazard and indiscriminate manner by the public. Not only are they absolutely valueless in many cases, but by creating a false impression of security they do an immense amount of harm." In other words, people imagine that cleanliness may be ignored provided only that they empty unlimited carbolic washes and powders over the unclean places. That is a dire superstition, born mainly of laziness and aversion to soap and water. The latter are just as necessary as they ever were.

Coffee Ice Cream.

To two cups of strong clear coffee add one pint of sugar and let this cook until it is a syrup; then stir in the beaten yolks of four eggs, remove from the fire, continue to stir and gradually add half a pint of cream. When the mixture is cold, turn into a freezer with three pints of cream and freeze.

IMPORTED HORSES BEING RECEIVED

SHIPPED DIRECT HERE FROM
FOREIGN LANDS.

Heavy Craft Animal Market Is Again
Being Supplied in This City—Buyers
Are Plentiful and Prices are High
—Several Sales Have Been Brought
About By Alex. Galbraith.

Imported heavy draft horses are again being shipped to this city. These horses come from England, Scotland and France. During the past few years the shipment of the heavy draft animals into this section of Wisconsin has not been carried on owing to a slump in the horse market. Not only did this state of affairs exist in this part of the country, but the same dullness prevailed in all parts of the west. The horses that have been received in this city of late have been valuable ones, ranging in price from \$1000 to \$2000, and have been sent to Alex. Galbraith. In speaking of the horse market Mr. Galbraith said:

"In all parts of the country the horse market has shown marked improvement of late. This is no doubt due on account of the scarcity of horses of all grades. Good horses are now in demand at good prices. The market shows steady improvement. The horses that we have received here of late have been costly ones, but there is a demand for them from stockmen in all parts of the west. During the past month we received a number of horses that were consigned direct to us from foreign buyers. From now on I look for a lively demand for horses."

A few years ago Janesville was known throughout the country as a horse center. Thousands of dollars were invested in model horse barns here. These barns during the past few years have been utilized for other purposes owing to the prevailing dullness in the horse market.

Mr. Galbraith has secured the barn at the corner of Milwaukee and Division streets that was used by Galbraith Bros. several years ago.

A DOUBLE INSTALLATION

Royal Neighbors and Woodmen Place
New Officers in Authority.

There was a double installation at West Side Odd Fellows' hall last night. It was the regular meeting night of Crystal Camp No. 132, Royal Neighbors of America, and as they had planned to hold their installation last evening they invited Florence Camp, No. 366, Modern Woodmen of America, to hold their installation at the same time.

The officers of the Royal Neighbors were installed by Mrs. Andrew Gibson and were as follows:

Orator—Mrs. Lyman Morse.
Vice Orator—Mrs. Nettie C. Collins.

PLANNING CUBAN REPUBLIC.

Generals Declare Themselves Confident
of Natives' Ability to Govern.

Santo de Cuba, Jan. 11.—Gens. Rabi and Castro have formulated an elaborate plan for a Cuban federal republic. This emphasizes the necessity of decentralizing government among the various provinces. They declare themselves confident of the ability of the Cubans to maintain a stable government, the people having had an admirable object lesson in the advantages of discipline and subordination during the American regime. Gen. Wood, who is expected here soon, has invited Gens. Rabi and Castro to accompany him on a tour of inspection over the island.

Gold Medal for Chief Swenke.

Princeton, Ill., Jan. 11.—D. J. Swenke, chief of the Chicago fire department, was presented with a gold medal Wednesday by the Illinois State Firemen's association, in annual session here, in honor of his completion of fifty years in the fire service. La Salle won the contest for the annual tournament, and offered a bonus of \$550. The date will be set later. The next annual meeting will be held at Pana next January.

Chattanooga, Tenn., Jan. 11.—In the trial of Julia Morrison for the murder of Frank Leidenheimer the jury returned a verdict of not guilty.

MILD WEATHER STOPS CUTTING

People's Ice Company and Many Workmen
Are Awaiting Colder Weather.

Mild weather during the past few days has put a stop to the ice harvest in this city. Sixty-five men employed by the City Ice company have been laid off to await colder weather. Two of the ice houses have been filled while one is yet to be stored with frozen blocks. The ice will average about fourteen inches in thickness. It is free from snow. Henry Tall of the City Ice Company said:

"We are not fearing a shortage this year on account of mild weather. The two houses we have already filled contain sufficient ice to supply all Janesville during the coming season."

IMPROVED DANCING HALL

Dedicating Party Will Be Held This
Evening in La Prairie.

Dancing in the town of La Prairie has become so popular this winter that the committee in charge of the La Prairie Grange hall have gone to the expense of laying a new hard wood floor. Other improvements have been made and the La Prairie people now claim one of the most model halls in Rock county. This evening the remodeled hall will be dedicated with a dancing party. Prof. Smith's full orchestra will furnish the necessary inspiration. Several from this city expect to attend.

SCHMIDLEY FARM AGAIN SOLD

This Time Ex-Alderman Kueck's Brother
Becomes the Purchaser

Henry Kueck, brother of ex-Alderman Charles H. Kueck of this city and for many years a resident near Beloit, has made the purchase of the John Schmidley farm at the edge of the city limits in the town of La Prairie. The farm consists of twenty five acres near the Spring Brook addition. For many years Mr. Schmidley conducted a cooper shop on the premises. The farm was sold some time ago by Mr. Schmidley to Mr. Humrill of this city, who in turn sold it to Mr. Kueck.

DETAILS OF FASHION.

First Autumn Hats—Low Throated Bodices—Gloves, Neckties, Etc.

The first theater bonnet of the new era in millinery has just blossomed, and it proves to be a frothed double handful of white tulle, light as soap-suds and set off with two long harpins that have elaborately cut and very large jet heads. It is worn perched rather forward on the head and has not a touch of color nor a spangle to rob it of its charm. In the garden of hats, where something new breaks forth every day, toques of dotted velvet with huge silk flowers and a dotted quill or two call for intelligent interest. The quills are treated with applied velvet disks and then cunningly tinted round the edges till a marked resemblance to the large dark velvety eye spots in a butterfly wing is noticed.

The gennies that build these hats say that it is sure to be the fashion later on for the wearer of a smart cloth or silk frock to have her directoire toque made of goods like her costume, brightened with strass or celtic silver buckles and the many eyed quills. The felt broads will one and all come in with velvet bound brims and in tones of gendarme blue, bronze green and murky gray that strike a sharp contrast with their black velvet brim borders. Another striking type is the felt with velvet dots or big satin dots on its surface and big flowers, made of silk with velvet hearts—mauve poppies as big as ice cream saucers and mulberry colored roses as large as a coffee cup.

You can, with your new louest green veil wear a garrote collar, as the high tight neckband is called or if the gown is intended chiefly for at home use you can have its neck comfortably cut down as low as the collar bones in front. Flat throated waists promise indeed to be conspicuous in the near future and when the theaters open next month many women are certain to be seen in gay special waists on which the tide of rucked chiffon, lace and ribbon rises no higher than the base of the round white necks.

Elbow sleeves are of course the rational accompaniment of the low necked waist, and the trick now played with sleeves is to have them of lace to the

style is either a fly front or one where all fastening is invisible.

A glance at the illustration shows all the salient points of this form of coat. This one has a ripple bordering of the same material, which others do not always have. The strap stitching is used with good effect, and so is the applique in a lighter shade of the same stuff. The whole outline of this is slightly scalloped, the collar forming a short cape on the shoulders.

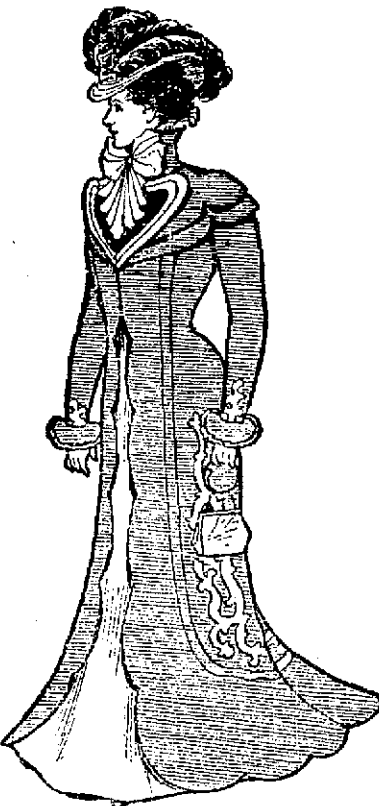

The full muslin tie gives a touch of elegance, and the pretty revers and sleeves make this garment something more than a mere redingote or new-market. Some of them are tailor stitched in a manner that may well be called art. Others have narrow rouleaux of fur.

There are several special kinds of cloth for these garments. The richest is the heavy broadcloth in the light pastel shades. The most valuable is the crummetted covert, and next to broadcloth it is the handsomest. It is proof against damp and rain. After these is a fine, closely woven, narrow wale cheviot, and there are several rough surfaced woolen stuffs, but they are not so handsome or dressy as the others. Some are in small, indistinct checks, with a sort of overthrow of fine hairs.

There are pelisses of velvet, of rich silk and also of some of the finest cloths. These are trimmed, it would seem, with everything that comes to the surface—lace, fur, beading, chiffon ruffles and ribbons. One queer idea is to have the outside rather plain and the inside finished with ruffles of lace, chiffon, silk mull or fur.

One very stylish new cape has a pointed fur yoke. The points reach to the waist line. There is then a deep ruffle sewed to this of velvet, sometimes a yard deep. This brings the whole garment pointed front and back. If it is of velvet it is often trimmed with fur, and sometimes fringe is added at the edge.

There was another redingote worth mention and copying too. It was of Havana brown broadcloth trimmed with bands of Alaska sable fur. It was

NEW STYLE NEWMARKET.

cut in front so that it did not meet across the chest or waist. This part was fitted in with heavy point de venise lace. There were very wide pointed revers on the vest which reached outside nearly to the shoulders. They were also covered with the lace. The fur bands reached from the neck down on both sides and around the whole bottom. Then from a point just in front of the side seam were other bands reaching to the bottom and losing themselves under the outer ones. The shape in the back is the newmarket.

The cravatette waterproofed newmarkets are of light pastel shades and tan and drab. The lower part is hemmed, and all inside seams are bound with satin, and the waist and sleeves are lined with satin. The shape and finish are most elegant and stylish.

Furs of any of the best kinds are extremely dear, but there are many imitations on the market, and these are worn to an extent hard to believe by wealthy women who can afford the real and ought to know better. Bows of every conceivable shape are seen, some of them being shaped like a victorine with stole ends reaching the feet.

There is now much handsome black lace used as trimming on such outdoor garments as are of a color to show up the design. Light tan, biscuit, mode geranium red and light green are all seen in velvet and in fine cloth with flat applique of black lace, generally used in connection with fur.

The new figured velvet that is being used for waists and very dressy wraps is handsome, but after all not so refined as the plain velvet.

In Frozen Siberia.

A traveler in Siberia tells of a remarkable occurrence among the frozen regions of that country. In the intensely cold nights the silence was sometimes broken by a loud bursting of one of the ice bubbles on a river, a phenomenon I had neither heard nor read of before. The streams coming down from the hills were frozen on the surface some six to nine inches thick. The water beneath flowed faster than it could escape, and the pressure, on the principle of an hydraulic press, became irresistible. First, the elasticity of the ice was seen by the rising of circular mounds some six or eight feet high. The bursting point came at last with a report like an explosion. The water escaped, but soon froze again. Scores of these ice mounds are to be seen in a few weeks of the river.

Largest Goat Ranch in the World.

What is to be the biggest goat ranch in the world has recently been started at Lamy Junction, N. M., where the Santa Fe branch leaves the main line, by Robert Foerderer, a morocco and kid manufacturer of Philadelphia. In connection with Lucius Beebe, a leather dealer of Boston, and several other capitalists. They bought what is known as the old Lamy grant from the Manzaneros family, at Las Vegas, and have already stocked it with 45,000 or 50,000 goats, which are to be used for breeding. Mr. Foerderer is said to use an average of 40,000 skins a day in his own tannery, which he has been getting mostly from Central and South America, but he thinks he can raise them cheaper than it costs him to import.

THE REWARD OF NAVAL OFFICERS.

Milwaukee Evening Wisconsin—President McKinley's action in consulting the interested naval officers in a body as to the plan of rewarding the heroes of the Cuban naval campaign was a wise course of procedure. The plan of rewarding the brave officers by promoting them has worked to the injury of many veteran naval fighters. It will be remembered that Capt. Higginson of the Massachusetts politely refused to accept an advancement in the list of captains because the proposed reward for his services would operate against the prospects of his fellow officers. The case of Capt. Clark of the Oregon illustrates the reason for Capt. Higginson's considerate action. Owing to the advancement of other officers, Capt. Clark is now two numbers lower in the list of captains than he was when the war with Spain broke it. This is certainly a poor reward for his splendid achievement in bringing the Oregon around Cape Horn in constant fighting trim, and for his heroic dash into the fight with Cervera's fleet. Other capable officers who had no opportunity whatever to display their prowess in battle, but who are seasoned fighters, through long service, have undoubtedly suffered because of the advancement of those who had the luck to be assigned to ships who were sent into the thick of the fight.

The naval officers who were in consultation with the president preferred the plan of reward with medals which give the recipient increased pay as well as distinction. Reward in this way would put a stop to the practice of lifting fortunate naval officers over the heads of brother officers equally brave and competent, and permit the procession through the grades to proceed without hindrance. If the officers who are listed for recognition because of their services in the war with Spain are rewarded with medals and increased pay, they will remain in the grades in which they were serving when they rendered a conspicuous account of themselves, and have their old numbers in those grades. This would be satisfactory to all concerned, and especially to the officers who occupied stations of trust where there was no opportunity whatever to achieve distinction.

The proposition to confer naval rewards with medals should be adopted, because it is in perfect accord with the spirit of the naval personnel law that was made a law by congress at its last session.

CRIMMINS TALKS SENSE.

John D. Crippins, a well known and influential democrat, has no further use for democracy. He is a large employer of labor and a clear headed business man. He has been a democrat and free trader all his life, but in an interview published by the New York Sun a short time ago, he said:

"We hear a lot of talk about the government's willingness to help the money market, but in my judgment the labor, business and financial phases of the political situation are far more important just now."

"The indorsement of Bryan by the democratic organization is a distinct menace to the labor and manufacturing interests. Let the workingmen pause for a moment to consider past embarrassment and present prosperity. They have, during the past few years, been better paid, have worked shorter hours, their wages, in many instances, have been advanced voluntarily, and this, too, by the very corporations which have been condemned by Coker and Bryan."

"I know whereof I speak when I say that the workingmen will repent bitterly if they now listen to the old sophistries and go to the polls and indorse them by voting for Bryan. I feel that when they reason a little they will reject false doctrine. To block the prosperity of the country by striking at its financial and commercial foundation is little short of criminal, and I believe that the workmen of today will not be led into any trap by the politicians. In difference may be injurious to us, for an indorsement of Bryanism at the polls of New York would be an injury to the best interests of the city, and, reflectively, to the state and nation."

Bicycles are cheaper, this year, and from \$25 to \$75 will be the ruling prices. The value of the wheel to men who have to travel some distance to their work, cannot be estimated. The machine is almost indispensable to working men whose callings take them to all parts of the city, and they will appreciate the lower prices more than anyone else.

Dan B. Starkey of the Milwaukee Evening Wisconsin, is named as Col. Anderson's probable successor in case Col. Anderson is made a member of the

Tax Commission. If Governor Scofield finds it necessary to appoint a new private secretary, he could do no better than to select Mr. Starkey. He is in every way qualified for the position.

Business of our colonies show an increase of 161 per cent. in exports and 61 per cent. in imports since they passed into American control. A good record, surely.

The injunction industry, also has done its share to make and keep Milwaukee famous.

Senator Beveridge appears to be of the "genuine three star brand."

Senator Hoar is temporarily in evidence again.

GOOD PERFORMANCE COMING

"The Rise and Fall of Humpty Dumpty" at Myers Grand

"The Fall and Rise of Humpty Dumpty" will be seen at the Myers Grand on Tuesday evening, Jan. 16. The Milwaukee News praises the production lavishly, saying, in part:

"Two crowded houses marked the appearance of Dickson and Mustard's spectacular pantomime. 'The Fall and Rise of Humpty Dumpty,' at the Alhambra yesterday.

In stage settings, in specialties, in chorus and ballet, in musical features and in mechanical effects, 'Humpty Dumpty' will rank with the best spectacular productions which have appeared in Milwaukee. While it is called a pantomime, most of the characters use speech all through the production, although this is no drawback to the merits of the piece.

The production closes with a transformation scene which is gorgeous, and is certainly equal to anything of the kind ever presented here. No description could give an idea of its beauty. 'Humpty Dumpty' will remain here for the week, with the usual matinees and should draw a big business.

MRS. C. D. CHILD AT THE HEAD

Annual Meeting of the Baptist Ladies' Aid Society Held Yesterday

At the annual meeting of the Ladies' Aid society of the Baptist church, held at the church parlors yesterday afternoon, the following officers were elected for the ensuing year:

President—Mrs. C. D. Child.
Vice President—Mrs. E. Tracy Brown.

Secretary and Treasurer—Mrs. A. C. Campbell.

After the election an elaborate repast was served and a social hour followed.

SHE GOES TO PARIS.

Blue Wing is one of the two Winnebago women who are to be taken to the Paris exposition by Thomas H. Roddy.

Mr. Roddy is the Chicago man who has been chosen chief of the Winnebago and who is to have charge of the United States Indian exhibit at Paris next year.

Blue Wing is one of the prettiest of the Winnebago maidens, and it is probable that after the continental tourists have seen her they will have a very different idea of the American Indian from that which most of them previously entertained.

Blue Wing does not want to go. She dreads the long trip across the big blue water, and she weeps at the thought of being separated from her tribe for so long a time. Although

Blue Wing was educated at a government school on her native reservation, she retains many of her savage superstitions and all of her Indian nature.

The other Indian woman who will go to Paris is Princess Neola. Last of the royal family of Tuscaroras, Neola comes of a family distinguished not only in Indian annals, but in the records of the United States. Her uncle was military attaché to President Grant. She is the wife of George Furst, a trapper and guide and chief assistant to Mr. Roddy. Neola speaks English fluently and correctly and can outargue many a charitably inclined white man. She was educated by her aunt, Caroline G. Montpleasant, the peace-maker queen of the Senecas.

In Texas some nine years ago a silver shakel was found dating back to 142 B. C. Intrinsically it is worth about half a dollar, but collectors put a price of \$5,000 on it.

A \$6,000 FIRE LOSS AT THE UNIVERSITY

BLAZE IN MACHINE SHOP DOES EXTENSIVE DAMAGE.

Prompt Work of the Department Results in Staying the Progress of the Element.—Building Will Be Replaced At Once.—Other State News Notes.

Madison, Wis., Jan. 11.—Fire broke out in the basement of the machine shops of the University of Wisconsin at 7:30 o'clock last night, and when it was extinguished two hours later the damage to the building and contents was estimated at \$6,000.

President Adams said that it was impossible to tell the exact extent of the damage until a thorough examination had been made. The president also said that the loss was fully covered by insurance, and the building would be repaired and the destroyed machinery replaced as soon as possible. The fire will not necessitate any suspension in instruction.

President Adams said that so far as he had investigated he had been wholly unable to determine its cause. The fire chief, however, believed that it was caused by spontaneous combustion, a pile of waste known to have been lying near the trap leading to the tunnel connecting the basement of the shops with adjacent buildings.

Before the fire could be put out the flames had spread from the basement to the first story, injuring considerable valuable machinery, consisting of lathes, electric motors, beltings, ducts and destroying all the surrounding wood work and much of the first floor. What might have proved a very disastrous fire indeed was avoided by the prompt arrival of the fire apparatus and the splendid work of the firemen. Strenuous efforts were necessary to prevent the fire from reaching the carpenter shop.

LORD ROBERTS AT CAPE TOWN

New British Commander-in-Chief at Scene of Operations.

Continued From page 1.

agent that he had no instructions to enlist non-British subjects."

Boers Still at Stormberg.

Stormberg, Jan. 8.—Gen. Gatacre sent a considerable force today to reconnoiter the Boers' position about Stormberg, natives having reported that the place had been evacuated. The Boers, however, were found strongly entrenched, and the British returned without any firing.

Boers Plan Invasion.

Cape Town, Jan. 8. (delayed in transmission).—The seizure by the republican forces of Kuruman, northwest of Kimberley, is much discussed here. The Boers' object is declared to be the invasion of Cape Colony by way of the Prieska and Kenhardt districts and to foment rebellion.

French in a Strong Position.

Rensberg, Jan. 8.—Gen. French holds a very strong position. He has hemmed the Boers in on three sides, and there is now only one exit open to them. Another 2,000 men would enable him to surround the enemy. The reverse to the Suffolk regiment does not affect the position in any way.

Supplies for the Boer Army.

Frankfort, Ind., Jan. 11.—Manufacturers of gunstocks here have received a rush order from the Transvaal for 125,000 gunstocks. The gunstocks are to be shipped to an arms firm in New York, where they will be fitted to rifles and then shipped to South Africa.

Rumored Boer Withdrawal.

London, Jan. 11.—An incredible rumor comes from Cape Town that the Boers have withdrawn from Magersfontein. Probably this is an embellishment of the native reports that Gen. Cronje is sending re-enforcements to Colesberg.

Will Not Take Ladysmith.

Antwerp, Jan. 11.—Dr. Leyds, the diplomatic agent of the Transvaal does not believe that the Boers will take Ladysmith, as he thinks the care of the 10,000 prisoners who would be captured there would too greatly embarrass the burghers.

Rumored Move by Russia.

Berlin, Jan. 11.—It is reported here that Russia annexed the Japanese island of Ulmeing in the beginning of November last and left fifteen soldiers there.

Costly Bits of Railway.

Perhaps the costliest mile of railway in the world is a mile measured on the steel portion of the Forth bridge in Scotland. The length of this portion is a mile and twenty yards, and the cost of it was considerably over \$10,000,000. The most expensive railway system in the world is the inner circle of London, which cost, including the purchase of land, from \$4,000,000 to \$5,000,000 per mile. The last constructed mile, between the Mansion house and Aldgate, cost altogether, including compensations, nearly \$10,000,000.

Cyclists in France.

Everybody in Paris will soon be running on wheels. There are in France—chiefly in Paris—over half a million registered bicyclists. In 1894 the number was 263,026 and last year 433,414. Each one pays a tax and carries a license. The above number does not include motor-cycles and motor-cars.

New Way to Carry Ice.
A West Side man has a novel way of transporting ice for use in his family, says the Columbus State Journal. He goes to the ice plant near the T. & O. C. tracks and secures a big piece, which he places in a bag and then suspends the bag so that it hangs beneath his horse. The bag is held in place by a strap which passes over the back of the animal, which walks along with the same ease as if the load of ice were on his back. Thus there is no danger of injury to the horse from the cold, and the ice is easily carried.

Big Libraries in China.
The great libraries of Pekin contain volumes of books numbered by the hundreds of thousands. In the archives of the government are still to be found the ancient predictions of eclipses made with great accuracy, together with works on astronomy which show a fair knowledge of that science.

MENU FOR FRIDAY.

After the tongue has once got the knack of lying 'tis not to be imagined how impossible almost it is to reclaim it.—Sir Walter Raleigh.

BREAKFAST.

Fricassee of Chicken. Cream Potatoes.
Baked Apples, Whipped Cream.

TIMBALE OF HALIBUT.—Take half a pound of cucurbit halibut, cut into pieces, pound it in a mortar and pass through a sieve. Mix a cupful of white bread crumbs with half a cupful of milk and stir until it makes a smooth paste. Remove from the fire, add the fish pulp, half a teaspoonful of salt and a dash of paprika. Then beat in lightly, a little at a time, the whipped whites of five eggs. Fill buttered timbale molds with the mixture and place them in a pan of hot water in a moderate oven for 20 minutes. This will fill a quart mold of eight individual molds. Serve while hot with motto sauce.

CHOCOLATE ICING.—Melt in a dry pan four ounces of chocolate. Boil one and three-quarter cupfuls of sugar with a cupful of water till it threads when dropped from the spoon. Turn it slowly on the chocolate, stirring all the time.

GOVERNOR TO SPEAK AT JUNCTION MEET

"TAXATION" WILL BE HIS SUBJECT TOMORROW.

Annual Convention Is As Much a Success, This Year, as Ever—Instructive and Entertaining Speeches and Papers Are Heard—Session Closes With Tomorrow's Program.

The "annual Farmers' convention" at Milton Junction is as successful a gathering this year as it ever was. Three sessions were held yesterday. The principal paper last evening was on the subject, "What Cities Should Do to Help Build Country Roads," by Otto Dörner of Milwaukee. Mr. Dörner is an authority on good roads and his paper was listened to with interest. A recitation by Miss Martha Stockman was followed by an address by W. N. Parker, assistant state superintendent. Prof. Parker had many valuable suggestions to offer. Prof. J. T. Haley led the discussion that followed. Miss Myrtella Boyd discussed "The Relation of the Community to Schools From the Standpoint of the Teacher," while Rev. G. W. Burdick spoke from the standpoint of the patron. County Superintendents David Thorne and William Ross led the discussion. Music was furnished, during the evening by the Nashville Quartet and the school children.

This Morning's Program

This morning's session was opened with music under the direction of Miss Delana Rogers. Rev. W. R. Palmer led in prayer. W. L. Ames spoke of "Jots by the Wayside at the Farmers' Congress." A recitation by Miss Lucille M. Hanson came next, and was followed by a paper on "Municipal or Government Ownership of Public Utilities" by Frank Snook. An essay by Mrs. C. B. Smith closed the morning program.

The afternoon program opened at 1:30. The first address was delivered by ex-Congressman L. B. Caswell, who spoke of "European vs. American Farming." The other numbers on the program were "Creamery Butter Making" by George Nelson; recitation, Miss Kittie McBride; "Cheese Making" by Hiram Bullock, and a recitation by Miss Lucy M. Alken.

This Evening's Program

The program for this evening and tomorrow is as follows:
Evening entertainment, under the direction of Mrs. Allie Burton-Cole, for the benefit of the convention. Everybody is invited to come and enjoy themselves and contribute to the support of the meeting. Admission 25 cents; children under 12 years, 15 cents. Doors open at 7 p. m. Performance at 7:30. Evening program subject to change.

TWENTY SIGN MUSTER ROLL

B. E. Hill Says New Company Is Assured in Janesville

Twenty young men have signed the muster roll for the organization of a new military company in this city. The majority of the signers were members of ex-Company A. Sixty-five members are needed before a new company can be formed. B. E. Hill, who is taking an active part in the formation of the new company, said this morning:

"I think we will have no trouble in getting the required number of signers. As for a drill hall we will probably rent the Armory of the Trades Council for certain nights each month."

MENU FOR FRIDAY.

Teach the tongue to say I do not know.—(Hebrew Proverb).

BREAKFAST.
Stewed Eggs, Oranges.
Boiled Rice, Cream.
Crisp Bacon, Cakes, Cornbread.
Toast, Coffee.

LUNCHEON.
Oysters, Cream Stew.
Celery, Tomato Pickle.
Lettuce Sandwiches, Tea.

DINNER.
Cream of Clams, Salmon Sandwiches.
Boiled Codfish, Fresh.
Macaroni, Tomato Sauce, Cabbage, Creamed.
Bavarian Cream, Camembert.
Coffee.

SERVING VEGETABLES ALONE.—Turnips, carrots, parsnips and beets all contain very little nourishment and should for this reason be served with concentrated foods. They are valuable, however, as they produce the necessary waste for intestinal action. A few vegetables are really better served alone as separate courses. These are artichokes and egg plant. Never serve too many vegetables at one time or in large quantities.

SALMON LOAF.—Butter a broad pan, line it with warm steamed rice seasoned with salt, fill the center with cold cooked salmon flaked and seasoned with salt and pepper and a little lemon juice and getting of nutmeg, cover with rice and steam one hour. Serve with egg sauce.

BUILD UP A CHURCH WITH A NEW PLAN

REV. W. A. HALL, OF COURT ST. CHURCH ORIGINATES IDEA

Women Meet Regularly For Work and Study, the City Being Divided Up Into Five Sections, Each With Its Leader—The Sessions Scheduled.

Rev. Walter A. Hall is now carrying out a novel plan of organization among the women of his church and congregation, which ought to effect good and build into the church. It is briefly stated, this: The women of the church and congregation are to meet together in groups once a week. These groups are composed of all the women in a given neighborhood disposed so to meet. The city is divided into five districts. These districts are not made on ward lines, but have reference rather to distances and the disposal of the membership of the church. Each of these districts has its center or place of meeting and a leader for their district. There will be five leaders to correspond with the five districts. The ladies will meet on Friday afternoon from 3 to 4 o'clock, for prayer, bible work, and for the purpose of getting better acquainted with each other. The social function will be made an important feature.

Mr. Hall says that if this organization works as well as the Current History Club has done he will be satisfied, and he sees no reason why it should not. The ladies with whom he has spoken are all heartily in favor of the plan. Following is a list of the leaders and the places of the meetings:

Mrs. Rev. J. P. Poorman will lead the meetings to be held at the residence of Mrs. Abram Phelps, 155 Pleasant street.

Mrs. Edith Nott assisted by Mrs. H. F. Nott, will lead the meeting to be held at her own home, 107 Madison street.

Mrs. H. W. Gilkey, will lead the meetings to be held at the residence of Mrs. Edna Hansen, 229 South Main street.

Mrs. E. S. Taylor will lead the meetings to be held at the residence of Mrs. George Sykes, 41 Milwaukee avenue.

Mrs. L. Humphrey will lead the meetings at the residence of Mrs. James Simpson, No. 10 Prairie avenue.

This arrangement puts a meeting within easy reach of every woman of the church or congregation.

DEPUTY S. D. FISHER

AFTER FISHERMEN

Captured Valuable Nets and Other Material, But the Men He Was After Escaped.

Deputy Warden S. D. Fisher of the town of Center, has been after illegal fishermen in Grant county during the past few days. He made the capture of a 1,000 feet seine and other fishing materials that the law breakers left behind in their sudden flight, and secured the names of three of the alleged guilty parties but the sheriff of Grant county was unable to serve warrants owing to the escape of the men who crossed into the state of Iowa.

Several days ago Deputy Fisher received notice that thousands of fish were being caught in the Mississippi river near Cassville, Wis.

The state law was being openly violated as it is alleged that the men were using nets that were placed in and taken out of the river after dark. Deputy Fisher lost no time in going to the scene of trouble. The fishermen were in all probability informed of his arrival as they made good their escape after war rants for their arrest had been issued.

The captured nets and other property is valued at a goodly sum and will be turned over to the state.

DAUGHTERS OF REVOLUTION

Met in Special Session This Morning to Talk of Public Library

Members of the local order of the Daughters of the American Revolution met in session at the Park Place home of Mrs. C. S. Jackson this morning.

The object of the meeting was to talk over affairs pertaining to the public library as suggested by Miss Marvin, who recently gave a lecture in this city.

There was a good attendance at the meeting. The ladies decided to take up the work of making the public, and especially the children, better acquainted with the city library and the good that it has in store for all who wish to enjoy its many advantages.

REV. WM. NEWTON'S CASE

Will Be Resumed in the Municipal Court Tomorrow Morning

The greater portion of the congregation of the Advent Christian church of the town of Magnolia will arrive in Janesville tomorrow morning as witnesses and interested defendants in the legal action of Rev. William Newton vs. the Advent Christian church. Mr. Newton sues for \$100 alleged salary, due him for preaching for a six months' period. The case will be bitterly contested, and will occupy the balance of the week.

SMOKE INJURED THEIR WIRES

Western Union Telegraph Company Prevent Further Damage Here.

Too much smoke for west side factories in the vicinity of North River street has induced the Western Union Telegraph company to place their wires along this thoroughfare in metallic casing. The wires, instead of being placed in a lead cable, are tape wound. This plan is less expensive and answers the purpose just as well.

COL. KIMBERLEY APPOINTED

Aide-de-Camp on the Staff of Albert D. Shaw

Col. E. O. Kimberley has been appointed aide-de-camp on the staff of Commander-in-Chief Albert D. Shaw of the Grand Army of the Republic. The appointment appears on general order number four from army headquarters at Independence hall, Philadelphia.

Col. Kimberley was upon the staff of Commander-in-Chief Walker and of Commander-in-Chief Sexton. Upon the death of Sexton, his successor, Gen. Johnson, continued the appointment, and added the distinction of "National Grand Army Singer" a compliment to our citizen and an honor to the organization throughout the state.

SMALL STORES DON'T PAY

A. C. Kent Remodeling Stores Into Flats For Renting Purposes

A. C. Kent, owner of the stores and flat buildings at the corner of Main, Court and Park streets, is of the opinion that flats rent more readily than small stores along Court street. When Mr. Kent built the building the ground floor was constructed with two stores. These stores have only been rented a portion of the time. Now Mr. Kent is having the stores remodeled into model flats. These flats will be small but modern in every respect and will be supplied with steam heat.

Victim of His Own Medicine.

A physician of Eastbourne, Me., recently made up a draught for a patient, putting in by mistake strychnine instead of chloroform, and when she complained that it made her sick, got angry, and to prove that the medicine was all right swallowed half the contents of the bottle himself. He immediately recognized the symptoms of strychnine poison, used a stomach pump and other means to destroy the effects, but died soon after.

RANDALL DENIES INSANITY CHARGE

DEMANDS JURY TRIAL IN THE COUNTY COURT.

Case Will Be Called Tomorrow Before Judge J. W. Sale—Two Physicians Make Examination and Pronounce Defendant of Unsound Mind—Randall Is Well Known.

Drs. J. B. Whiting and Leroy O. Hedges have made an examination into the mental condition of Monroe Randall of this city and pronounced Mr. Randall of unsound mind.

Mr. Randall denies that he is insane and has demanded a jury trial. In Judge J. W. Sale's court tomorrow the case will be called. Relatives of the defendant, it is alleged, claim that Mr. Randall has been "acting queerly" for some time and that he is not responsible for his actions.

Not many days ago Chief Hogan placed Randall under arrest on the charge of the larceny of hay from a neighbor. He pleaded guilty in the municipal court and was sentenced to jail.

Mr. Randall has made Janesville his home for a number of years and is well known. He is unmarried and is a teamster.

CHURCH CADETS MAY DISBAND

Lack of Interest on the Part of the Boys the Reason.

There is talk of the Christ Church Cadets disbanding. There has been no meeting of the Cadets for several months. Lack of interest on the part of the young men is given as the cause of the present condition. The Cadets were organized by the Rev. A. H. Barrington. The company consisted of 36 members who were drilled by Capt. Fred H. Koebelin. One interested in forming the company said:

"The boys of today are not the young men of fifteen years ago. Now they think too much of foot ball, base ball, etc. That is why it has been hard to get the Cadet members out for regular drill."

WORK OF THE GRIM REAPER.

Miss Emma Shields.

Miss Emma Shields, daughter of James Shields of the town of Harmony, died at Chicago at 2 o'clock this morning, her demise occurring at the home of her sister, Mrs. Charles J. Witt.

Miss Shields had been ill for some time past with stomach and bowel trouble, and went to Chicago about six weeks ago to take medical treatment. Later she caught the grip, and her death followed as above stated.

Miss Shields was twenty-one years of age last September. She was a young woman of excellent personal traits, and her untimely death is a sad blow to her relatives and friends.

Mrs. Caroline Horn.

Funeral services over the remains of the late Mrs. Caroline Horn, wife of Charles Horn will be held from the house, corner of South River and Union streets, Friday afternoon at 2 o'clock instead of 2:30 as previously announced, and from Trinity church at 2:30. Rev. J. A. M. Richey will conduct the services and the interment will be in Oak Hill cemetery.

Harvey Smith

Death claimed Harvey Smith an old resident of Janesville, yesterday, his death occurring at his home, 126 Chatham street, at 1 o'clock p. m. Mr. Smith was seventy-seven years of age. He had been ill about one year.

Mr. Smith was a woodworker by trade, and had been employed by Jerome Howland and Adam Wilson. He is survived by a widow, but had no children.

LATE NEWS BY TELEGRAPH.

REBELS FLEE INTO BATANGAS

Filipinos Still in Rapid Retreat Southward.

TOWNS BEING GARRISONED.

American Troops Left to Hold Captured Points—Pacification of Cavite Province Nearly Complete—Natives Suffering from Want of Food.

Manila, Jan. 11.—Cavite province is the hotbed of the insurrection, but it is fully garrisoned. The civil government will be organized promptly. Peace is assured if the troops are not withdrawn. The attempted concerted movement of Gens. Bates and Schwan to surround and destroy the insurgents failed, owing to Col. Berkheimer causing the Filipinos to make a general retreat south by his brilliant killing fight at Cavite Viejo.

Gen. Schwan could not move over the long distance quickly enough owing to the bad roads from the lake to the bay, to intercept the enemy. Two thousand insurgents fled along the western trails into Batangas province.

Are Driven from Maig. Manila, Jan. 11.—Reports from the movements of the American commanders south of Manila show that Gen. Bates and Gen. Wheaton are at Perez Dasmariñas, and Gen. Schwan at Silang, all awaiting the arrival of provision wagons. Reconnoissances have shown that 2,000 armed insurgents have retired to the mountains from the district between Indang and Maig, and others have retreated along the coast from Novalela toward Batangas.

Tuesday night Nolan's squadron of the Eleventh cavalry drove a body of insurgents from Maig. One American was killed and two were wounded. Thirteen dead Filipinos were found.

The movement largely resembles Gen. Schwan's experience in the same country, except that the towns are now being garrisoned and that the insurgents refuse to fight, retreating southward and dividing into small bands, with the apparent intention of reassembling later. The plan of catching a large number between two brigades has failed. About 100 insurgents have been killed, but comparatively few arms have been taken.

The region is full of amigos, who doubtless have been bearing arms, which they have hidden. The woman and children remain in their homes and the insurgents, as they fall back, release all prisoners that they have captured.

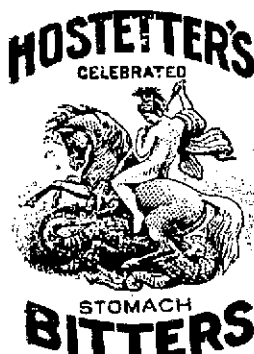

Natives in Want of Food. The inhabitants of the islands of Leyte and Samar are suffering from lack of food, resulting from the long blockade, the arbitrary confiscation of property and the levying of tribute by the so-called government of the Filipinos.

Lieut. Bowman Kills Himself. Washington, Jan. 11.—Gen. Otis informed the war department that First Lieut. Daniel T. Bowman of the Thirty-seventh volunteer infantry, while temporarily deranged, committed suicide by shooting himself. Lieut. Bowman was a native of St. Francisville, La.

Michigan's Prosperous Year. Lansing, Mich., Jan. 11.—Labor Commissioner Cox has issued a bulletin in which he makes the statement that at no time in its history has Michigan enjoyed such general prosperity in all branches of industry and employment as marked the year 1899. Seventy-four per cent of the factories reported a marked increase in business over the previous year. Great advance was made in all branches, but especially in the manufacture of beet sugar and cement and the mining of soft coal.

Permits Dewey to Do Sea Duty. Washington, Jan. 11.—If Secretary Long approves the recommendation of the board of officers engaged in reviewing the naval regulations, Admiral Dewey will continue to be available for sea duty. A provision inserted in the regulations permits his assignment to command a fleet and to such shore duties as the secretary of the navy may direct.

Famine in Prospect in China. Toronto, Ont., Jan. 11.—The Toronto Presbyterian foreign mission office has received a letter from its mission in Honan, China, bearing news of complete failure of crops throughout that region. Famine confronts the natives, who are greatly excited, blaming the missionaries for their misfortunes.

SEVERE BILL AGAINST TRUSTS.

Measure Introduced in Mississippi Legislature Defines Illegal Acts. Jackson, Miss., Jan. 11.—The anti-trust law introduced in the upper house of the legislature defines a trust to be not only an organization of companies under signed agreement to maintain certain prices, but also companies between which it is mutually understood that certain prices are to be maintained.

The bill makes specific mention of insurance companies and cottonseed oil industries. It also asserts that news-gathering associations which refuse to furnish more than one paper in a community with service are trusts or corporations. Penalties for violation of the law ranging from \$200 to \$5,000 are imposed.

Yellow Fever in Mexico. Vera Cruz, Mexico, Jan. 11.—Several new cases of yellow fever have broken out here after it had been supposed the epidemic was stamped out. Several deaths have occurred in the military and civilian hospitals.

Yellow fever has reappeared at Orizaba, according to the report of the sanitary agent stationed in that city. On Jan. 2 one case was noted at the city of Tehuantepec, but since that date no cases have been reported there.

Steel Workers May Strike. Cleveland, Jan. 11.—The rod-mill workers employed by the American steel company in this city have demanded an increase in wages of 12 1/2 per cent. The company offered to compromise, it is understood, on 7 1/2 per cent. The offer was rejected by the men, who say that unless their demands are conceded by Monday they will go out. Should the men strike several thousand mill workers would be affected directly and indirectly.

Shows a Large Balance. Des Moines, Iowa, Jan. 11.—At the annual meeting of the State Agricultural society here the following officers were elected: President, Robert Johnson of Humboldt; vice-president, J. C. Frasier of Bloomfield; directors, W. C. Brown, Clarion; L. H. Pickard, Harlan; M. J. Wragg, Waukegan; J. W. Wadsworth, Algonia; John Howat, Clinton. Secretary Van Houten's report showed a balance of \$16,500 cash on hand.

Will Fight Mine Tax. Berlin, Jan. 11.—The German and French holders of Transvaal gold shares have decided to co-operate in resisting the reported gold mine tax of 30 per cent on the output.

Prize Fighters Divide Purse. New York, Jan. 11.—For defeating Dixon, Terry McGovern received \$9,416. The boys sparred for 50 per cent of the gate receipts, of which the winner received 75 per cent and the loser 25 per cent. The total amount of money taken in at the gate was \$25,010. Dixon's share, therefore, was \$3,139.

Thirteen Children Frozen. New York, Jan. 11.—A cable dispatch to the Journal from Berlin says: "A dispatch from Muenichschlag, a small town near Neuhaus, Bohemia, reports that thirteen school children on their way home yesterday afternoon from school were overtaken by a severe snowstorm and frozen to death."

BRYAN FAVORS NEW TERRITORY

But Its People Must Be Intelligent Enough to Become Citizens.

Minneapolis, Minn., Jan. 11.—In an interview Wednesday W. J. Bryan said: "I am a firm believer in the enlargement and extension of the limits of the republic. I do not mean by that the extension by the addition of contiguous territory, nor to limit myself to that. Wherever there is a people intelligent enough to form a part of this republic, it is my belief that they should be taken in. Wherever there is a people who are capable of having a voice and a representation in this government there the limits of the republic may be extended. The Filipinos are not such people. The democratic party has ever favored the extension of the limits of this republic, but it has never advocated the acquisition of subject territory to be held under colonial government."

Michigan Man Is Arraigned.

Lansing, Mich., Jan. 11.—The last of the persons indicted by the grand jury, with the exception of Gen. White, who has not been found by the authorities, was arraigned in the Circuit court Wednesday. This was James H. Brown of Battle Creek, president of the state live stock sanitary commission. The indictment charges Brown with having during the year ending June 30, 1899, charged the state per diem and expenses for 258 days, whereas it is alleged he actually worked for the state only 158 days. The amount collected was \$1,824, and the sum said to have been actually earned was \$723. A plea of not guilty was entered and a bond given for appearance for trial at the March term.

Makes Protest to McKinley.

Pittsburg, Pa., Jan. 11.—Pursuant to the order of the general assembly of the Presbyterian church in the United States, the permanent committee on temperance has prepared a communication to President McKinley against the sale of liquor in new territory, and this paper has been forwarded to Washington with a prayer to the president that he look into the matter at once and give the committee some recognition of its action.

Financial Concerns Merged.

New York, Jan. 11.—The consolidation of the National Bank of Commerce and the National Union bank, both controlled by the Mutual Life Insurance company, has been practically completed. The terms are yet to be ratified by the stockholders. The new bank is to be known as the National Bank of Commerce. Its capital is to be \$10,000,000 and its surplus \$6,000,000.

Sells Declines the Honor.

Des Moines, Iowa, Jan. 11.—The democratic joint legislative caucus last night selected Fred E. White, democratic candidate for governor in 1897 and 1899, as the democratic nominee for United States senator against John H. Gear. Cato Sells of Vinton, who was considered likely to receive the compliment, telegraphed asking that his name be not considered.

Fishing Tugs Safe.

Grand Haven, Mich., Jan. 11.—The tugs Anna, Augur and Bos of the local fishing fleet, which were in a perilous position in the ice off this port all last night, reached the harbor safely. Their crews suffered greatly from exposure, and had nothing to eat for twenty-four hours.

Growth of the Lawton Fund.

Washington, Jan. 11.—The Lawton fund will probably reach \$90,000. Wednesday's cash on hand is \$72,436.47, exclusive of the Union league funds and the draft from Gen. Shafter for nearly \$10,000.

It is scientifically affirmed, that in the theory of the female sex, the change from the girl to the woman, beginning at fifteen and ending at forty-five, the average woman spends ten years of that time in physical suffering caused by irregular periods, disagreeable drains, female troubles, or other derangements of the functions of the delicate female organs.

"Think of it! One-third of the best years of a woman's life spent in a struggle with pain."

There is no wonder that women everywhere are full of unbounded praise and gratitude for Dr. Pierce's Favorite Prescription. It does away with all suffering due to the diseases of the organs peculiarly feminine. It regulates the periods, stops the disagreeable drains, heats inflamed and ulcerated conditions, and cures female weakness. It brings all the delicate female organs into natural, healthy and harmonious action.

There is no opium or other narcotic, and no alcohol, which is a powerful stimulant in 'Favorite Prescription.'

Sick women are invited to consult Dr. Pierce by letter, without charge. Write freely. Every letter is treated as strictly private and sacredly confidential.

Dr. Greene's NERVURA
BLOOD NERVE REMEDY.

MAKES CHILDREN WELL AND STRONG.

WILL CURE YOUR CHILD.

Mr. James Bonway, Whittsburg, N. Y., says: "Two years ago my little son, Ernest, was taken with a terrible case of eczema, so bad that his head was so thick that we could not see a single hair on his head. When we carried him on our arm, the matter would drip off his head. We did not think he would live, but we gave him Dr. Greene's Nervura blood and nerve remedy and he got well and is now as bright and healthy a child as any and has no return of the disease. I send this letter for publication for the good of others."

If your child is sick or not feeling right, give it Dr. Greene's Nervura, which is purely vegetable and harmless. If you wish you can have the advice of Dr. Greene, 35 West 14th St., New York City, about your child free of charge. Write at once.

WORKING FOR A PARCELS POST

Congress to Be Asked to Establish a System Like That of England.

By Andrew Downs.

The present congress will be asked to establish a parcels post in connection with our postal system. This same request has been put to other congresses and promptly shelved. But this time the demand is to be backed by the National Association of Manufacturers, the most influential commercial organization in the country. Not only do the manufacturers want a parcels post, but a great many individuals who appreciate the convenience and economy of the system will join in making the request.

It is proposed to ask congress to add to the postal service the delivery of parcels, reducing the rate for fourth class matter and extending the maximum weight of parcels which may be sent through the mails to 11 pounds.

At present four pounds is the weight of the heaviest package of merchandise which may be sent through the mails, and the rate is 1 cent an ounce, or 16 cents a pound. This makes the mailing of all merchandise weighing a pound or over practically prohibitory, for the postage would in many cases be almost as much as the original cost of the article.

Just at this season of the year, when the express companies are taking royal toll of the senders of Christmas packages, this matter is of timely interest.

The National Association of Manufacturers, which has the parcels post

THEODORE C. SEARCH.

movement in hand, is organized in nearly every state in the Union, and among its members are the leading American manufacturers. Its president is Mr. Theodore C. Search of Philadelphia, who, besides being a large manufacturer, is vice president of the Philadelphia Textile school and a man of most progressive ideas.

Regarding the plans of the Manufacturers' association Mr. Search recently said: "At the next annual meeting of the National Association of Manufacturers in January the subject of a parcels post delivery as a part of the United States postoffice system will be taken up and a vigorous outline of campaign decided upon after a thorough discussion."

"We want a parcels post system for the carrying of merchandise at a comparatively low rate, because it is to the interest of the people at large. We are not attempting in any way to direct the operation of the postoffice department, but to emphasize the advantages of the proposed system, together with the compensation in receipts which can be adjusted so as not to increase the expenses of the system at large. It has been shown repeatedly that vast quantities of freight under the classification of periodicals are being carried by the mails at fourth class matter at a heavy loss, while other merchandise is excluded. A much higher rate could be charged for parcels of miscellaneous merchandise up to the weight of ten pounds, with a large increase of returns to the government and yet an impressive saving in convenience and charges to the producer and consumer who are at present driven to the express companies."

"Trade would be increased all over the country in many branches where transportation charges are now prohibitive. We think that the government should give merchandise a chance with the class of matter now carried under the name of literature, at the same time charging a rate which would insure against a loss, while the charges of the English parcels post would do. This parcels post system should be made international as well as national for the great saving in time and charges."

Mr. Charles A. Schieren, treasurer of the Manufacturers' association, is chock full of statistics concerning the parcels post. He says:

"We favor the English parcels post system rather than the German. The limit of weight under the former—namely, 11 pounds—seems more reasonable than the German limit of 10 pounds. The records of our department prove that merchandise could be carried in the mails here at about the English rate, which begins at 6 cents a pound, and was the rate for merchandise in the mails at the time the schedule was changed in the early seventies to 16 cents per pound. The government rate is therefore now 100 per cent in excess of actual cost on the parcels post which we now have in this country."

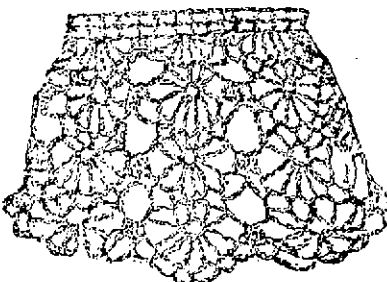

THE ARCTIC MOSQUITO.

A Pierce Insect That Is a Menace to Human Life.

"Nothing that has ever been written about the arctic mosquito begins to come up to the real thing," said a guest in the St. Charles corridor the other evening. "I went up the Yukon river in the summer of 1896, representing the Alaska and Dominion Trading company, and we struck mosquitoes as soon as we got into the hills. They are twice as large as our familiar bayou species, and their sting is like the prod of a hot needle. They sweep along the valleys in dense clouds, and if they catch a man unprepared they are liable to blind him before he can escape. I heard stories of children being stung to death, and can readily believe them. Whenever we went ashore we wore heavy bat nets and took the utmost precaution, but were certain to suffer more or less. One of our party cut the tongues out of his shoes and a narrow line of sock was exposed under the lacing. Next day he was bitten there at least a hundred times, and his feet were so terribly inflamed that the shoes had to be cut off. Another man, a fireman in the boat crew, got drunk on Alaska whisky one afternoon and lay down to take a nap in a corner of the engine room, and was horrified at the solid brown mass of mosquitoes that had settled on a small exposed section of his cheek and throat. In an hour his face was swollen out of all resemblance to anything human, he was unable to swallow and was burning with fever. It was a week before he was able to be about. I saw a number of cattle near Fort Hamilton that had been made stone blind by stings near the eye. The arctic (tooth) mosquito is without doubt the most terrible insect pest in the world."—New Orleans Times-Democrat.

A Dainty Lace Pattern.

1. Chain 28.
2. Turn, 1 double on the sixth stitch of chain. Chain 2, skip 2 on the foundation chain, 1 double in the next stitch. Chain 2, skip 2, 1 double on next stitch. Repeat till the end is reached.
3. Chain 4. Turn, make a double on every double of previous row, with chain of 2 between.
4. Chain 2, 4 doubles under the first chain of 2 on previous row, skip the next chain of 2 on previous row. Make 7 trebles with chain of 3 between them under the third 2 chain of foundation. Skip 2 chain, 4 doubles under next 2 chain. Skip 2 chain of foundation, 7 trebles in the next. Repeat until the end is reached.
5. Chain 8, fasten in center of shell of 4. Chain 6, fasten under chain of 8.

SPIDER FAN LACE.

Repeat to the end, fastening the last chain with a double instead of single.

6. Chain 10, fasten under the third chain of 6. Chain 6, fasten under next chain. Chain 6, fasten under next chain. Chain 6, fasten under next chain. Chain 8, skip 2 chains of 6 and fasten in next chain. Repeat to end.

This completes one row. Make it as wide as desired by repeating from third row, making the shells of 4 under the chain of 8 and the fans under the middle chain of 6.

Made of 80 or 90 cotton, it makes dainty lace for handkerchiefs, curtains or infants' wear and is a very rapid pattern, says The Ladies' World in illustrating this lace.

A Room in Pale Sage Tones.

Beautiful rooms are those in pale sage. Woodwork should be dull sage of medium color and paper a couple of tones higher, with sage, pink and silver in the frieze. Carpet may be sage gray, old blue and old pink, in an all over design. Portieres of old rose, gray green or goblin blue will be pretty. Furniture combining all the colors will make an artistic interior.

An Historic Bell.

Chester (Pa.) Special Philadelphia Inquirer: John Wetherill has found and will have placed in a tower on the Oak Grove schoolhouse a bell with a luminous record. It is said by the historian that when the people of Chester heard that the Declaration of Independence had been signed they ran to the courthouse, where this bell then hung, and rang it most of the day, much to the discomfort of the many Tories. The old bell was cast in 1729. In 1850, when the county seat was moved to Media, the borough of Chester purchased the buildings and the bell was removed to the old schoolhouse. In 1885 a new building was erected, and the bell was placed in the loft of the new building and forgotten. There is now a movement on to have a great ceremony over the moving.

Game Plentiful in Pennsylvania.

Pennsylvania contains within its borders a wonderful variety of conditions—from the most civilized centers to the wildest reservations. It is not necessary for a keystone hunter to go to the far west for the keenest sport. For instance, he can shoot bear in Cameron county, deer in Clinton or wildcats in the dangerous defiles of Blair and Huntingdon counties. One hunter is credited with having already killed forty-two wildcats this fall.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them. The dreadful ordeal through which the expectant mother must pass, however, is so fraught with pain, suffering and danger, that the very thought of it fills her with horror. There is no necessity for the ordeal of childbirth to be either painful or dangerous. The use of **MOTHER'S FRIEND** during pregnancy so prepares the system for the event that it is safely passed without any discomfort whatever. This liniment has carried thousands of women through this great crisis without suffering, and they declare it a godsend to women. Send for free book containing information of priceless value. White Onion Soup.

Slice up four onions and saute them in two ounces of butter, in which they must not be allowed to brown. Then pour over them in a saucepan a pint of boiling white stock, with two ounces of bread crumbs, and salt and pepper to taste. Simmer till the vegetables are tender, then pulp through a sieve and boil with a pint of milk. The soup is improved if, before serving, two ounces of grated cheese are stirred in.

Corn Bread.

One cupful of cornmeal, one cupful of wheat flour, two tablespoonfuls of sugar, one-half teaspoonful of salt, two teaspoonfuls of baking powder, one beaten egg, one cupful of milk, one tablespoonful of melted butter. Mix in the order given and bake from 20 to 30 minutes in a biscuit tin or in a hot, buttered gem from if individual muffins are preferred.

To Prevent Electrolysis.

An Ohio man has patented a device to prevent electrolysis in pipes and conduits, formed of a non-conducting collar to fit between the ends of the joints, with one end of the collar flanged to prevent the ends of the pipe from coming in contact.

GRAIN-O! GRAIN-O!

Remember the name when you want a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it. Grain-O is made of pure grain, it aids digestion and strengthens the nerves. It is not a stimulant, but a health builder and the children as well as the adults can drink it with great benefit. Costs about as much as coffee. 15c and 25c per package. Ask your grocer for Grain-O.

Resolution Aimed at Trusts.

Washington, Jan. 11.—Senator Butler Wednesday introduced a resolution "declaring the duty, power and purpose of the government to destroy trusts by removing the causes that produce them." The plan proposed is to control the issuance of money and to control the railroads and telegraph and telephone lines by the government when the resolution sets forth, "the three great trusts for evil known to civilization will have been destroyed and at the same time the causes which have logically and inevitably produced the aggregation of great industrial trusts will be forever removed and the reign of monopoly will be at an end."

Eulogies in the House.

Washington, Jan. 11.—Eulogies were to have been delivered in the House Wednesday upon the late Representative Danford of Ohio, but owing to the enforced absence of Representative Gill, Mr. Danford's successor, the order was set aside. A small amount of business was transacted, after which the house, under special order, proceeded to the delivery of eulogies upon the late Representative W. L. Greene of Nebraska. At the conclusion of the eulogies the usual resolutions were adopted, and the house adjourned until Friday, on motion of Mr. Payne of New York.

Reciprocity Treaty in Peril.

Washington, Jan. 11.—Private reports from Paris indicate that the reciprocity treaty between the United States and France is in a hazardous position, with more than a possibility of a defeat when it comes to the final vote in the French chambers. The administration here is filled with grave concern for the fate of the treaty in the United States senate, and thus the convention is in the singular position of being exposed to rejection by both parties on the ground that it is too favorable to each.

Mason to Answer Beveridge.

Washington, Jan. 11.—Senator Mason, as well as Senator Hoar, expects to reply to Senator Beveridge's speech on the Philippines.

Senator Mason and ex-Gov. Boutelle of Massachusetts are to speak at a mass meeting of "anti-imperialists" tonight, the subject for discussion being, "Labor and War in the Philippines."

Join the Depository Banks.

Washington, Jan. 11.—The secretary of the treasury has closed the second group of banks which have deposited bonds and asked to participate in the temporary deposits of internal revenue funds. This group contains about seventy-five banks and represents about \$10,000,000 in bonds deposited, making approximately \$27,000,000 in all.

Representative Levy of New York introduced in the house a bill to provide for the payment of interest on all internal revenue receipts now on deposit or hereafter deposited in national banks of the United States.

Discuss New Shipping Laws.

Washington, Jan. 11.—The representatives of the shipbuilding interests were given a hearing Wednesday by the house committee on merchant marine and fisheries on the measure known as the shipping bill. Ex-Senator Edmunds submitted a general argument in favor of the measure. He said one of the fundamental principles of the bill was that it gave no scope for combinations or syndicates of ship owners and no field for trusts, as its operations were open to all alike, and the advantages conferred were as free as the ocean itself.

Plague Spreads in Honolulu.

Washington, Jan. 11.—Surgeon-General Wyman of the marine hospital service has received a report from Dr. Carmichael at Honolulu stating that there were eight additional cases of bubonic plague there up to Jan. 1.

Ten-Dollar Pension Bill Framed.

Washington, Jan. 11.—Senator Allen Wednesday introduced a bill in the senate granting a pension of \$10 a month to every soldier and sailor who served in the civil war for three months or more.

Dr. Livingstone's Grave.

Dr. Livingstone's grave in Africa is now marked by "a tall iron telegraph pole, carefully secured," as the deputy administrator for the district north of the Lambesi reports with satisfaction. The tree under which the explorer's heart has lain was rotting, so the section containing the inscription was cut out and shipped to the Royal Geographical society, while in the center of the stump the telegraph pole was set.

Small Coins in Greece.

The smallest coin now current in Europe and the one having the least value is the Greek lepton. The lepton is, according to the decimal monetary system, current in all countries belonging to the Latin union. Some idea of this valueless little disc of copper may be gathered from the fact that the lepton is the one-hundredth part of a drachma. The Greek drachma usually passes for the value of 20 cents.

A BUSINESS Proposition

"If You See It In
The Gazette
It is New and True."

The price of The Gazette is fifty cents per month, or \$5 per year if paid yearly in advance. The Gazette asks no charity. If people think it is worth the price we will be much pleased to deal with them. If not, we do not ask them to subscribe. We are getting out the best possible paper at the price, and selling it upon its merits. We are not selling it under false pretenses, but like any other business concern of good repute, we seek to give full value received for every dollar we take in.

This issue is a fair sample of our paper, and we would be pleased to have your subscription—if you think it worth the price.

Order it by telephone 77-2 rings—either the Wisconsin or Rock county lines, at your convenience—or drop us a postal card, and we will do the rest.
